## Teletubbies 2

designed by G'ma Yuen, age 72

Level: Advanced

For help with the legs, see the [Illustrated Penguin Directions](#)

Special Note: The creator of this pattern used the mini pony beads and wire. If you are using ribbon or cord, you may need to reinforce the wide parts to avoid gapping. See the [Buzz Lightyear](#) pattern for instructions on how to reinforce.

You can also see these Teletubbies patterns, with bead counts for each row, on [Lily's site](#).
